Aim and Function

This organisation serves as a forum for returnees to Hinduism. Congratulations! Any such return marks the re-discovery of one's roots as you all do know. For this reason we have ourselves called this organisation by the name of **Roots** as you find. Wherever they are placed in the backdrop of their erstwhile surroundings, returnees are likely to encounter problems of isolation or even hostility. This is particularly so in areas where many brands of christianity are aggressive against Hinduism. Of all these the roman catholic brand is also the vilest by reason of its complete conformity to rebellion.

There are also prospective returnees whom this organisation will be trying to reach. We want to reach out to as many returnees as possible. We want to share information and proposals with them and to be of moral support to them in their situation accruing from their principled stand. We find the phenomenon of Hinduism, Vedic or non-Vedic, traceable in the entire human race.

We trust we have briefed you sufficiently in this communique.
